a man's own story from the Rhondda Jeffrey Weeks was born in the Rhondda in 1945 of mining stock as he grew up he increasingly felt an outsider in the intensely community minded valleys a feeling intensified as he became aware of his gayness escape came through education he left for London to university and to realise his sexuality from the early 1970s he was actively involved in the new gay liberation movement and became its pioneering historian this was the beginning of a long career as a researcher and writer on sexuality with widespread national and international recognition he has been described as the most significant British intellectual working on sexuality to emerge from the radical sexual movements of the 1970s his seminal book coming out a history of lgbt movements and identities since the 19th century has been in print for forty years he was awarded the obe in the Queen's Jubilee Honours in 2012 for his contribution to the social science

it is an exciting time to be a librarian advances in technology have let libraries expand far beyond walls and lead the way in information delivery while transforming the physical library into a place where customers can connect to information in new ways it is also a challenging time to be a librarian with continual change as the new normal staying current can seem overwhelming even as they face budget shortfalls and staff reductions librarians are tasked with finding the time and resources to keep abreast of rapid changes this book offers a cornucopia of practical advice about how to acquire new skills and formal and informal credentials through all stages of a career the 27 essays cover formal and online education conferences fellowships workshops networking teaching mentoring balancing personal with professional lives and money matters and are filled with practical honest and real world advice

the 1980s was a decade of enormous global change upheaval from the top of governments to the bottom of societies saw a new world order begin to emerge a new form of capitalism redefined global economics on both the right and left as market forces were unleashed the ideological conflict of the previous four decades petered out as superpower relations improved a more interconnected world introduced new consumer products and forms of popular culture to societies across the globe and protest movements saw new battles fought and new alliances forged in an increasingly interdependent world the routledge handbook of the global 1980s brings together specialists from across the world to examine how the decade was shaped by these changes to politics economics culture societies and protest movements the handbook is divided into five parts focusing on the global environment globalisation and neoliberalism politics and society culture and society and the closing stages of the global cold war by taking an international approach to the history of the 1980s this book offers a wide ranging and important new perspective of this hugely transformative decade it will appeal to students and scholars alike as well as all those interested in the political social economic and cultural shifts of the 1980s

the concept of concurrent engineering ce was first developed in the 1980s now often referred to as transdisciplinary engineering it is based on the idea that different phases of a product life cycle should be conducted concurrently and initiated as early as possible within the product creation process pcp the main goal of ce is to increase the efficiency and effectiveness of the pcp and reduce errors in later phases as well as incorporating considerations including environmental implications for the full lifecycle of the product it has become a substantive methodology in many industries and has also been adopted in the development of new services and service support this book presents the proceedings of the 25th ispe inc international conference on transdisciplinary engineering held in modena italy in july 2018 this international conference attracts researchers industry experts students and government representatives interested in recent transdisciplinary engineering research advancements and applications the book contains 120 peer reviewed papers selected from 259 submissions from all continents of the world ranging from the theoretical and conceptual to papers addressing industrial best practice and is divided into 11 sections reflecting the themes addressed in the conference program and addressing topics as diverse as industry 4 0 and smart manufacturing human centered design modeling simulation and virtual design and knowledge and data management among others with an overview of the latest research results product creation processes and related methodologies this book will be of interest to researchers design practitioners and educators alike
